

SunCanvas

FEATURES & BENEFITS

DESCRIPTION

SunCanvas gives the look of a high-end floor without breaking the bank. The multiple layers of polymer-rich, integrally colored decorative concrete form a highly durable and nearly indestructible surface. It's available with infinite color and pattern design options, making it an optimal alternative for flooring in a home or business.

SunCanvas is first applied with an epoxy-based layer, then additional hand-troweled layers, with a final clear seal urethane topcoat.

FEATURES & BENEFITS

- One of the most affordable decorative concrete coatings
- Can be installed interior and exterior
- Hypoallergenic, chemical, and abrasion-resistant
- Breathable, durable, and easy maintenance
- Ability to mimic marbled floor designs, polished look, and a fantastic alternative to tile
- Cover imperfections in concrete
