Description & Key Benefits:

SUNDEK offers 12 SunMetal Metallic Pearl Pigments. SunMetal is used in combination with SunEpoxy 54,100 or SunOne Polyaspartic or the complete line of **SUNDEK** acrylic sealers. SunMetal provides a smooth, glass like finish that creates a one-of-a-kind look resembling that of moon craters or a lava lamp. The 3D effect caused by the metallics will provide a custom flooring solution with a real WOW factor.

Common Applications:

- Restaurants / Bars
- Basements
- Garages
- Retail Stores
- Casinos
- Offices
- Showrooms
- Kitchens
- ...and much more!
