**TUSCAN** is a textured decorative concrete effect created by applying a thin overlay to an existing or new concrete surface. The Sundek artisan then creates a custom texture on the surface using their trowel and their experience, thus crafting a unique look resembling a deeper stamped concrete overlay.

**TUSCAN** can be used to achieve many looks:

- Flagstone
- Custom Slate
- Various Sizes of Tile
- Brick
- Wood
- Seamless (No Pattern)
- Whatever You Imagine!

**TUSCAN** can be combined with Classic texture, SunStamp or any other SUNDEK product to transform your project.

**TUSCAN** gets its finishing touch by adding one of SUNDEK's staining or coloring options.

Protect your **TUSCAN** investment with one of the SunClear line of protective sealers.

Every project is hand-crafted and only installed by **SUNDEK** artisans.
