

## CLASSIC TEXTURE

### The Original Spray Texture System

- Slip-resistant texture
- Non-porous acrylic finish coat
- Economical & durable
- Add on a variety of designs

Classic Texture is an acrylic-based spray texture system that is sprayed onto the surface then “knocked” down with a trowel’s edge.

## SUNSTONE

### Architectural Limestone Coating

- Looks & feels like real stone
- Hand carved travertine, flagstone & tile designs
- Uses advanced coloring techniques
- Can be applied over various surfaces

SunStone is installed by SUNDEK trained artisans using a trowel over the existing surface. Authentic and unique designs are crafted by hand.

## SUNSTAMP

### Versatile Stampable Overlay

- Textures of flagstone, tile, wood, slate, & brick
- Various coloring options
- Incorporate custom designs
- Applied over concrete and other surfaces

SunStamp is installed with a thin coating that artisans then press stamp mats into, creating the desired texture.

## TUSCAN

### Elegant Hand Troweled Texture

- Thin overlay with look of thick stamped overlay
- Wood plank, tile, or flagstone designs
- Add color with stains, acrylic finishes, or oxides
- Can be applied over various surfaces

Tuscan is achieved by hand troweling every installation into a custom texture of high and low areas giving it that old-world European elegance.

## SUNSPASH

### Economical Decorative Spray Coating

- Texture is safe, durable, and attractive
- Maintenance-friendly coating
- Add various design and color effects
- Ideal for high-traffic areas

SunSplash is a spray texture acrylic coating that is sprayed and not troweled, thus leaving an "orange peel" effect.

## STAMP REHAB

### Restore Old Concrete Surfaces

- Simple color enhancements & resealing
- Major repairs & rehabilitation
- New look without tearing out the concrete
- Various color options

SunRestore Stamp Rehab provides a complete makeover for stamped concrete from minor to major rehab without replacing the concrete.
