

## SunGlaze

*The translucent finish that provides a custom look without a custom price*

### DESCRIPTION

SunGlaze is the finishing technique that takes the ordinary and turns it extraordinary.

SunGlaze is the mixture of a powder color pigment with Sundek's Crystal Clear finish coat to produce a translucent stain effect.

SunGlaze provides long-lasting surface protection and ease of maintenance to the surface it is applied.

### **Sundek Products Needed**

- Sundek Color Oxides
- Sundek Crystal Clear

### **Product Description**

**Sundek Color Oxides** – Synthetic pigments used to color concrete

**Sundek Crystal Clear** – A one part urethane solvent base sealer (30% solids)

### **Application Instructions**

Clean surface by power washing and removing all contaminants. Allow drying until there are no visible signs of water or moisture. Slab and ambient temperature above 45° F and rising, staying above at least 2 hours. Apply pre colored Crystal clear through out surface. Slip resistance agents may be added for safety.
